PROFILE

AI Automation Engineer and n8n Verified Creator bridging the gap between AI capabilities and real business value. I design production-ready systems including AI agents, integrations, and automated pipelines, combining software engineering expertise with a finance background to deliver solutions focused on business impact and ROI.

EXPERIENCE

- AI Automation Engineer · IG Green Tech INTERNSHIP Feb 2026 – Present · Casablanca Technopark
GitLab · Docker · Jira · Google Services · Slack · Airtable · PostgreSQL · AI Agents
 - Architected and self-hosted a production n8n platform (Docker, PostgreSQL) integrating 6+ Business tools
 - Ran process discovery sessions with department leads to map and prioritize high-impact workflows for automation
 - Developed automated Jira ticket monitoring workflows that detect blocked, unassigned, or due-soon tickets and trigger multi-channel escalation alerts
 - Automated sprint reporting and KPI dashboards, eliminating manual reporting and delivering structured insights to management
 - Engineered LLM-powered daily briefings surfacing ticket progress, blockers, and AI recommendations to project managers
 - Maintained workflow documentation, credential management, and automated backup systems to ensure platform reliability
- Banker · BMCE Bank Mar – Jul 2023 · Casablanca
 - Managed a retail client portfolio, advising on financial products and consistently meeting monthly acquisition targets
- Data Analyst · SOREMED INTERNSHIP Mars – Aug 2022 · Agadir
 - Built a Power BI treasury dashboard consolidating financial KPIs, reducing manual reporting time for the finance team

PROJECTS & COMMUNITY

- AI Automation Hub · n8n Verified Creator · aixautomation.tech · 2025 – Present
 - Placed 4th out of 14 teams at the AI Crafters × N8N Hackathon (1st edition)
 - Served as an organizer at 1337 × HackAI Hackathon (2nd edition), guiding and supporting participants throughout the event
 - Built FlowSave; open-source CLI for n8n backup, restore & migration, published on npm
 - Built an npm package evaluation agent (Firecrawl + n8n + OpenAI) cutting 30-min manual research to a 10-second Slack report (n8n Monthly Challenge)
 - Designed a 3-stage human-in-the-loop content pipeline (strategy → creative → final review) with approve / revise / reject gates, keeping AI-scaled output on-brand (n8n Monthly Challenge)
 - Built a weekly AI portfolio analysis agent (n8n + ScrapingDog) delivering automated stock market reports (collaboration with ScrapingDog)

TECHNICAL SKILLS

Automation	n8n (Verified Creator), Make, Zapier, Workflow architecture, AI agent design, Human-in-the-loop
AI & LLMs	OpenAI, Gemini, Claude, AI agents, RAG, Prompt engineering, MCP
Integration	REST APIs, Webhooks, Jira, Slack, Google Services, PostgreSQL, GitLab/GitHub, CRMs, Crawlers
Code	JavaScript / TypeScript, Python, C/C++, React, Node.js, Nest.js
DevOps	Git, Docker, Vercel, Postman, AWS, GCP Console, Nginx, Linux
Data	Power BI, Databricks
Languages	Arabic (native), French (fluent), English (professional)

EDUCATION

- 1337 Coding School — UM6P Benguerir 2023 – 2026
Architecte IT (Software Engineering)
Peer-to-peer, project-based computer science education · CS fundamentals, autonomy, collaboration & problem-solving
- International University of Agadir 2020 – 2022
Master's in Finance
- Hassan II Casablanca University 2017 – 2020
Licence in Economics and Management
