

Anas Chahid Ksabi

AI AUTOMATION ENGINEER · N8N VERIFIED CREATOR 

Casablanca, Morocco | +212 624 42 38 05 | anasks1999@gmail.com
aixautomation.tech | linkedin.com/in/anas-chahid-ksabi | github.com/achahid19

PROFILE

AI Automation Engineer specializing in n8n workflow architecture and AI agent development. I build systems that automate complex business processes, connect APIs, and deploy autonomous agents, with a finance background that grounds every solution in ROI, not technical complexity.

EXPERIENCE

AI Automation Engineer · IG Green Tech INTERNSHIP Feb 2026 – Present · Casablanca Technopark

GitLab · Docker · Jira · Google Services · Slack · Airtable · PostgreSQL · AI Agent

- Designed and deployed a self-hosted, Docker-based n8n automation platform integrating multiple business services into a unified workflow environment
- Identified high-potential processes for AI automation alongside department leads
- Developed real-time monitoring and alerting workflows to detect issues and trigger escalations, reducing response times across critical processes
- Automated reporting and data aggregation, transforming manual analysis into structured insights
- Engineered AI-powered workflows using LLMs to analyze operational data, automate task assignment, and surface actionable decision-making insights

Banker · BMCE Bank Mar – Jul 2023 · Casablanca

- Managed client portfolios and delivered tailored financial solutions, improving client acquisition and satisfaction

Data Analyst · SOREMED INTERNSHIP May – Aug 2022 · Agadir

- Designed a Power BI dashboard for treasury performance monitoring and reporting

PROJECTS & COMMUNITY

AI Automation Hub aixautomation.tech · 2025–Present

- Built an npm package evaluation agent (Firecrawl + n8n + OpenAI): reduced 30-min manual research to a 10-second Slack report — n8n Monthly Challenge
- Designed a three-stage human-in-the-loop content pipeline (strategy → creative → final review) with approve / revise / reject loops at every gate, keeping AI-scaled output on-brand and client-ready — n8n Monthly Challenge
- Built a weekly AI portfolio analysis agent (n8n + ScrapingDog) delivering automated market reports to Gmail with live prices, in collaboration with ScrapingDog
- Built FlowSave — an open-source backup, restore & migration tool for n8n instances, with a CLI and a dashboard
- n8n Verified Creator with published community templates; completed n8n Course Level 2

TECHNICAL SKILLS

Automation	n8n (Verified Creator), Make, Zapier, Workflow architecture, AI agent design, Human-in-the-loop
AI & LLMs	OpenAI, Gemini, Claude, AI agents, RAG, Prompt engineering, MCP
Integration	REST APIs, Webhooks, Jira, Slack, Google Services, PostgreSQL, GitLab/GitHub, CRMs, Crawlers
Code	JavaScript / TypeScript, React, Node.js, Python, C/C++
DevOps	Git, Docker, Vercel, Postman, AWS, GCP Console, Nginx, Linux
Data	Power BI, Databricks
Languages	Arabic (native), French (fluent), English (professional)

EDUCATION

1337 Coding School — UM6P Benguerir 2023 – 2026

Architecte IT (Software Engineering)

Peer-to-peer, project-based computer science education · CS fundamentals, autonomy, collaboration & problem-solving

International University of Agadir 2017 – 2022

Master's in Finance
